The last word(s) from NAEP teammates. . .

With a newly acquired “word cloud” generator, the director of the NAEP State Service Center emailed NAEP State Coordinators and a host of others who worked in the NAEP State Service Center (Westat, Inc.), the National Center for Education Statistics (NCES), the Educational Testing Service (ETS) and other NAEP contractors. She asked them for a word or phrase that came to mind when “you think about Bert.” The word cloud was presented at the last NAEP in-service session I attended. It’s been over 25 years since I last applied for a job. If I ever seek a job again, I just may try to use this word cloud in place of “letters of recommendation.”
